

DIRECTORATE OF PLANNING, STATISTICS & EVALUATION, PORVORIM – GOA.

## PREFACE

The National Sample Survey Organization (NSSO) Government of India undertakes annual surveys on various socio economic aspects in the economy. The 72<sup>nd</sup> round of NSS was held during the period 1<sup>st</sup> July 2014 to 30<sup>th</sup> June 2015. The subject covered in the survey is Domestic Tourism Expenditure for Goa State.

This report gives findings in respect of Domestic Tourism Expenditure based on State Sample. The survey provides estimates relating to indicators, like volume of Domestic Tourism, number of households undertaking domestic tourism activity, number of overnight Trips and same day trips, average tourism expenditure etc. It is presumed that report will be highly useful to researchers, planners and Policy makers etc.

This Directorate is extremely thankful to the NSSO, Government of India, New-Delhi for providing guidance and conduct of survey. Thanks are also due to Data Processing Centre, Kolkata for providing the software's for data entry, validation & tabulation of data.

The excellent efforts put in by the officers & officials of NSS division of this Directorate in the field work, data entry, validation, generation of tables & report writing is highly appreciated. Special appreciation to the officials of NSS Division for validating the data & generating the tables without the help of NIC. Readers are requested to give constructive suggestions if any, for improving the report in future.

*Place: Porvorim, Goa Date: 13* <sup>th</sup> *March 2018* 

(Dr. Y. Durgaprasad) DIRECTOR DPSE, Porvorim-Goa

|------------|--|---------|
| Table No.  | Title  | Page    |
| 1          | Number of households, persons, no. of households reporting overnight trips, no. of overnight visitors, no. of overnight trips and average household size for each State/UT | A1-A2   |
| 2          | Per 1000 distribution of households reporting overnight trips during last 365 days by religion for each State/UT   | A3      |
| 3          | Per 1000 distribution of households reporting overnight trips during last 365 days by social group for each State/UT   | A4      |
| 4A         | Per 1000 distribution of households reporting overnight trips during last 365 days by household type code for each State/UT  | A5      |
| 4B         | Per 1000 distribution of households reporting overnight trips during last 365 days by household type code for each State/UT  | A5      |
| 5A         | Per 1000 distribution of overnight visitor-trips completed during last 365 days by purpose of trip for each State/UT   | A6-A7   |
| 5B         | Per 1000 distribution of overnight visitor-trips completed during last 30 days by purpose of trip for each State/UT  | A8-A9   |
| 6A         | Per 1000 distribution of overnight visitor-trips completed during last 365 days by purpose of trip for different age-groups  | A10-A11 |
| 6B         | Per 1000 distribution of overnight visitor-trips completed during last 30 days by purpose of trip for different age-groups   | A12-A13 |
| 7A         | Per 1000 distribution of overnight visitor-trips completed during last 365 days by purpose of trip for different educational levels  | A14-A16 |
| 7B         | Per 1000 distribution of overnight visitor-trips completed during last 30 days<br>by purpose of trip for different educational levels                                      | A17     |
| 8A         | Per 1000 distribution of overnight visitor-trips completed during last 365 days by purpose of trip for different activity status   | A18-A19 |
| 8 <b>B</b> | Per 1000 distribution of overnight visitor-trips completed during last 30 days by purpose of trip for different activity status  | A20-A21 |
| 9A         | Per 1000 distribution of overnight visitor-trips by major mode of travel for each visitor's purpose completed during last 365 days   | A22     |
| 9B         | Per 1000 distribution of overnight visitor-trips by major mode of travel for each visitor's purpose completed during last 30 days  | A23     |
| 10A        | Per 1000 distribution of overnight visitor-trips by major type of stay for each visitor's purpose completed during last 365 days   | A24-A25 |
| 10B        | Per 1000 distribution of overnight visitor-trips by major type of stay for each visitor's purpose completed during last 30 days  | A26-A27 |
| 11A        | Per 1000 distribution of overnight visitor-trips by no. of nights spent in the trip for each visitor's purpose completed during last 365 days                              | A28-A29 |
| 11B        | Per 1000 distribution of overnight visitor-trips by no. of nights spent in the trip for each visitor's purpose completed during last 30 days                               | A30-A31 |

| 12A | Per 1000 distribution of overnight visitor-trips completed during last 365 days by main destination for each state/UT   | A32 |
|-----|---|-----|
| 12B | Per 1000 distribution of overnight visitor-trips completed during last 30 days by main destination for each state/UT  | A33 |
| 13A | Per 1000 distribution of visitor-trips by purposes for<br>visitor-trips completed during last 365 days from the A34-A39<br>same state and from other states for each state/UT |     |
| 13B | Per 1000 distribution of visitor-trips by purposes for<br>visitor-trips completed during last 365 days from the A40-A45<br>same state and from other states for each state/UT |     |
| 14  | Number of overnight trips both surveyed and estimated A46 by leading purpose for each State/UT  |     |
| 15A | Estimated number (00) of overnight trips completed<br>during last 30 days for each starting month for different A47-A48<br>leading purposes                                   |     |
| 15B | Estimated number (00) of overnight trips completed<br>during last 365 days for each starting month for different A49-A50<br>leading purposes                                  |     |
| 15C | Estimated number (00) of overnight trips completed<br>during last 30 days for each starting month for different A51-A52<br>leading purposes                                   |     |
| 15D | Estimated number (00) of overnight trips completed<br>during last 365 days for each starting month for different A53-A54<br>leading purposes                                  |     |
| 16A | Per 1000 distribution of overnight trips completed during<br>last 30 days by quintile class of UMPCE for each A55<br>leading purposes   |     |
| 16B | Per 1000 distribution of overnight trips completed during<br>last 365 days by quintile class of UMPCE for each A55<br>leading purposes  |     |
| 16C | Per 1000 distribution of overnight trips completed during<br>last 30 days by quintile class of UMPCE for each A56<br>leading purposes   |     |
| 16D | Per 1000 distribution of overnight trips completed<br>during last 365 days by quintile class of UMPCE for A57<br>each leading purposes  |     |
| 17A | Per 1000 distribution of overnight trips completed during<br>last 30 days by no. of members in the trip for leading A58<br>purposes   |     |
| 17B | Per 1000 distribution of overnight trips completed during<br>last 365 days by no. of members in the trip for leading A59<br>purposes  |     |
| 18A | Estimated no. of overnight trips(00) completed during<br>last 30 days by leading purpose of trip for household A60-A61<br>NIC   |     |
| 18B | Estimated no. of overnight trips(00) completed during<br>last 365 days by leading purpose of trip for household A62-A63<br>NIC  |     |

| 19A | Estimated no. of overnight trips(00) completed during last 30 days by leading purpose of trip for household NIC                                    | A64     |
|-----|--|---------|
| 19B | Estimated no. of overnight trips(00) completed during<br>last 365 days by leading purpose of trip for household<br>NIC                             | A65     |
| 20A | Average expenditure (in Rs.) per overnight trip<br>completed during last 30 days by categories of<br>expenditure for leading purpose of trip       | A66-A68 |
| 20B | Average expenditure (in Rs.) per overnight trip<br>completed during last 365 days by categories of<br>expenditure for leading purpose of trip      | A69-A71 |
| 21A | Average expenditure (in Rs.) per overnight trip<br>completed during last 365 days by categories of<br>expenditure for each quintile class of UMPCE | A72-A74 |
| 21B | Average expenditure (in Rs.) per overnight trip<br>completed during last 30 days by categories of<br>expenditure for each quintile class of UMPCE  | A75-A77 |
| 22A | Average expenditure (in Rs.) per overnight trip completed during last 30 days by leading purpose of trip for each quintile class of UMPCE          | A78     |
| 22B | Average expenditure (in Rs.) per overnight trip<br>completed during last 365 days by leading purpose of<br>trip for each quintile class of UMPCE   | A78     |
| 22C | Average expenditure (in Rs.) per overnight trip<br>completed during last 30 days by leading purpose of<br>trip for each quintile class of UMPCE    | A79     |
| 22D | Average expenditure (in Rs.) per overnight trip completed during last 365 days by leading purpose of trip for each quintile class of UMPCE         | A80     |
| 23  | Number of same-day trips both estimated and surveyed by leading purpose completed during last 30 days for each State/UT                            | A81     |
| 24A | Per 1000 distribution of same-day trips by quintile class of UMPCE for each leading purpose of trip  | A82     |
| 24B | Per 1000 distribution of same-day trips by quintile class of UMPCE for each leading purpose of trip  | A83     |
| 25  | Average expenditure per same-day trip by categories<br>of expenditure for leading purpose completed during<br>last 30 days                         | A84     |
| 26  | Average expenditure per same-day trip by categories<br>of expenditure for each quintile class of UMPCE<br>completed during last 30 days            | A85     |
| 27A | Average expenditure per same-day trip by quintile class of UMPCE for each leading purpose of trip  | A86     |
| 27B | Average expenditure per same-day trip by quintile class of UMPCE for each leading purpose of trip  | A87     |

| 28 | Estimated no. of trips, average no. of members in a trip<br>and average expenditure per trip for special domestic<br>trips during last 365 days | A87     |
|----|---|---------|
| 29 | Minimum and maximum value of MPCE for each quintile class   | A88-A89 |

# **Chapter One**

## **Introduction and Survey Design**

#### **1.0 Introduction**

**1.0.1** The National Sample Survey (NSS) set up by the Government of India in 1950 to collect Socio-Economic data employing scientific sampling methods. NSS Division, Directorate of Planning, Statistics and Evaluation, Government of Goa in coordination with National Sample Survey Office, National Statistics Organisation, Ministry of Statistics & Programme Implementation, and Government of India started its seventy second rounds from 1<sup>st</sup> July 2014 and continued up to 30<sup>th</sup> June 2015.

#### **1.0.2 Subject Coverage**

The National Sample Survey 72<sup>nd</sup> round (July 2014 – June 2015) of NSS has covered the subject of 'Domestic Tourism Expenditure' for State Sample.

#### **1.1 Objective of the Survey**

**1.1.1.1 Survey on Domestic Tourism Expenditure (Schedule 21.1):** The ecomonic and social important of domestic tourism in State like Goa endowed with a splendid cultural and historical heritage.

**1.1.1. 2** Domestic Tourism Expenditure Survey is design to collect detailed information on household expenditure on tourism along with some information on household charactoristics, visitore characteristics and trip characteristics in relation to domestic overnight trips, same day trips, and special domestics' trips for some leading purpose.

#### **1.2 Outline of Survey Programme**

**1.2.1 Geographical Coverage:** The survey has been covered with the whole of the Goa State on Sample base. Allocations of sample villages and blocks for NSS 72nd round for Goa State sample were 24 Rural and 36 Urban.

#### 1.2.2 Period of survey and work programme

The survey period of this round is divided into four sub-rounds of three months' duration each as follows:

sub-round 1 :July - September 2014sub-round 2 :October - December 2014sub-round 3 :January - March 2015sub-round 4 :April - June 2015

In each of these four sub-rounds equal number of sample villages/blocks (FSUs) has been allotted for survey with a view to ensure uniform spread of sample FSUs over the entire survey period. Attempt has been made to survey each of the FSUs during the sub-round to which it is allotted.

#### **1.2.3 Schedules of enquiry**

During this round, the following schedules of enquiry were canvassed:

| Schedule 0.0:  | List of Households                  |
|----------------|-------------------------------------|
| Schedule 21.1: | <b>Domestic Tourism Expenditure</b> |

**1.2.4. Participation of States:** In this round all the States and Union Territories except Andaman & Nicobar Islands, Chandigarh, Dadra & Nagar Haveli and Lakshadweep are participated. The following is the matching pattern of the participated States/UTs.

| State/UT  | Extent of matching |
|---|--------------------|
| Nagaland (U)  | triple             |
| Andhra Pradesh, Jammu & Kashmir , Manipur, Delhi, Odisha, Telangana | double             |
| Maharashtra (U)   | one and half       |
| Remaining States/ UTs   | equal              |

Note: Participated States has to canvassed only Schedule 21.1

#### **1.3 Sample Design**

**1.3.1 Outline of Sample Design:** A stratified multi-stage design has adopted for the 72nd round survey. The first stage units (FSU) were the census villages in the rural areas and Urban Frame Survey (UFS) blocks in the urban areas. The ultimate stage units (USU) were households in both rural and urban areas. In case of

large FSUs, one intermediate stage of sampling is the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/urban FSU.

**1.3.2 Allocation of total sample to State:** The Total number of 60 sample FSUs has been allocated to the Goa State in proportion to State population as per census 2011 subject to minimum sample allocation to each State.

### 1.3.3 State Sample size

The villages in rural areas and UFS blocks in urban areas included in the sample are called as First Stage Units (FSU). The sizes of State sample for Goa in the Area frame are 60 FSUs comprising 24 villages and 36 UFS blocks. In each of the four sub-rounds, equal numbers of sample villages/blocks (FSUs) has been allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period.

## **Chapter Two**

## **Survey Procedure**

### **1.2.0 Sample Design**

## **1.2.1 Outline of sample design**

A stratified multi-stage design has been adopted for the 72<sup>nd</sup> round survey. The first stage units (FSU) are the Census villages in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) are households in both the sectors. In the case of large FSUs, one intermediate stage of sampling is the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/ urban FSU.

## **1.2.2 Sampling Frame for First Stage Units**

For the rural sector, the list of 2011 Population Census villages constitutes the sampling frame. For the urban sector, the list of UFS blocks (2007-12) has been considered as the sampling frame.

## 1.2.3 Criterion for hamlet-group/ sub-block formation

After identification of the boundaries of the FSU, it has been determined whether listing is to be done in the whole sample FSU or not. In case the approximate present population of the selected FSU is found to be 1200 or more, it is divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector by more or less equalising the population as stated below.

| Approximate pr | esent population of the sample FSU | No. of hg's/sb's to be formed |
|----------------|------------------------------------|-------------------------------|
| less than 1200 | (no hamlet-groups/sub-blocks)      | 1                             |
| 1200 to 1799   |                                    | 3                             |
| 1800 to 2399   |                                    | 4                             |
| 2400 to 2999   |                                    | 5                             |
| 3000 to 3599   |                                    | 6                             |
| and so on      |                                    | -                             |

## **1.2.4 Formation and selection of hamlet-groups/ sub-blocks**

In case hamlet-groups/ sub-blocks are formed in the sample FSU, the same has been done by more or less equalizing population. Note that while doing so, it is ensured that the hamlet-groups/ sub-blocks formed are clearly identifiable in terms of physical landmarks.

Two hamlet-groups (hg)/ sub-blocks (sb) has been selected from a large FSU wherever hamlet-groups/ subblocks has been formed in the following manner – one hg/ sb with maximum percentage share of population is selected and termed as hg/ sb 1; one more hg/ sb is selected from the remaining hg's/ sb's by simple random sampling (SRS) and termed as hg/ sb 2. Listing and selection of the households has been done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation has been treated as sample hg/ sb number 1.

### **1.2.5 Formation of second stage strata and allocation of households**

A cut-off point 'A' (in ') has been determined from NSS 68<sup>th</sup> round data for urban areas of **each NSS region** in such a way that top 40% of the population have Monthly Per Capita Expenditure (MPCE) more than 'A'. The Value of Urban cut-off point A (MPCE in Rs.) for Goa State is Rs. 2810.

#### **1.2.5.1** The following is the plan of second stage stratification for schedule 21.1.

All the Households listed in the selected FSU/ hamlet-group/sub –block has been stratified in to two second stage strata (SSS) for five SSS for schedule 21.1. Composition of the SSS and number of households has been surveyed from different SSS for each of the schedules of enquiry as follows:

|       | Composition of SSS   |                                   | number of households has been surveyed |                                |
|-------|--|-----------------------------------|--|--------------------------------|
| SSS   |  |                                   | FSU without<br>hg/sb<br>formation      | FSU with<br>hg/sb<br>formation |
| Rural |  |                                   | 1                                      |                                |
| 1     | Households having at least one member who performed overnight          | with strong dwelling structure    | 2                                      | 1                              |
| 2     | trip during last 365 days for medical/<br>holidaying/ shopping purpose | without strong dwelling structure | 2                                      | 1                              |
| 3     | from the remaining, households<br>having at least one member who       | with strong dwelling structure    | 2                                      | 1                              |
| 4     | performed any other overnight trip<br>during last 30 days              | without strong dwelling structure | 2                                      | 1                              |
| 5     | other households   |                                   | 2                                      | 1                              |
| Urban | 1  |                                   |  |                                |
| 1     | Households having at least one<br>member who performed overnight trip  | with MPCE > A                     | 2                                      | 1                              |
| 2     | during last 365 days for medical/<br>holidaying/ shopping purpose      | with MPCE $\leq$ A                | 2                                      | 1                              |

## **Chapter Three**

## **Estimation Procedure**

## **1.3 Estimation Procedure**

## 1.3.1 Notations

- s = subscript for s-th stratum
- t = subscript for t-th sub-stratum
- m = subscript for sub-sample (m = 1, 2)
- i = subscript for i-th FSU [village (panchayat ward)/ block]
- d = subscript for a hamlet-group/ sub-block (d = 1, 2)
- j = subscript for j-th second stage stratum in an FSU/ hg/sb
- k = subscript for k-th sample household under a particular second stage stratum within an FSU/ hg/sb
- D = total number of hg's/sb's formed in the sample FSU

 $D^* = 0$  if D = 1

- = (D 1) for FSUs with D > 1
- Z = total size of a rural/urban sub-stratum (= sum of sizes of all villages/blocks of a sub-stratum)
- z = size of sample village/UFS block used for selection.
- n = number of sample FSUs surveyed including 'uninhabitated' and 'zero cases' but excluding casualty for a particular sub-sample and sub-stratum.
- H = total number of households listed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU
- h = number of households surveyed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU
- x, y = observed value of characteristics *x*, *y* under estimation
- $\hat{X}$ ,  $\hat{Y}$  = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

Ystmidjk = observed value of the characteristic y for the k-th household in the j-th second stage stratum of the d-th hg/ sb (d = 1, 2) of the i-th FSU belonging to the m-th sub-sample for the t-th sub-stratum of s-th stratum.

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

#### 1.3.2 Formula for Estimation of Aggregates for a particular sub-sample and stratum × sub-stratum

#### 1.3.2.1Schedule 0.0 (Rural/Urban)

(i) For estimating the number of households in a stratum × sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{Z}{n} \sum_{i=1}^{n} \frac{1}{z_i} \left[ y_{i1} + D_i^* \times y_{i2} \right]$$

Where  $y_{i1}$ ,  $y_{i2}$  are the total number of households possessing the characteristic y in hg's 1 & 2 of the i-th FSU respectively.

(ii) For estimating the number of villages in a stratum × sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{Z}{n} \sum_{i=1}^{n} \frac{1}{z_i} y_i$$

Where *y<sub>i</sub>* is taken as 1 for sample villages possessing the characteristic and 0 otherwise.

## 1.3.2.2 Schedules 21.1 (Rural/ Urban)

(i) For j-th second-stage stratum of a stratum × sub-stratum:

$$\hat{Y}_{j} = \frac{Z}{n_{j}} \sum_{i=1}^{n_{j}} \frac{1}{z_{i}} \left[ \frac{H_{i1j}}{h_{i1j}} \sum_{k=1}^{h_{i1j}} y_{i1jk} + D_{i}^{*} \times \frac{H_{i2j}}{h_{i2j}} \sum_{k=1}^{h_{i2j}} y_{i2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y} = \sum_{j} \hat{Y}_{j}$$

#### 1.3.2.3 Overall Estimate for Aggregates for a sub-stratum

Overall estimate for aggregates for a sub-stratum ( $\hat{Y}_{st}$ ) based on two sub-samples in a sub-stratum is obtained as:

$$\hat{Y}_{st} = \frac{1}{2} \sum_{m=1}^{2} \hat{Y}_{stm}$$

#### **1.3.2.4 Overall Estimate for Aggregates for a stratum**

Overall estimate for a stratum ( $\hat{Y}_s$ ) will be obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

#### 1.3.2.5 Overall Estimate of Aggregates at State/UT/all-India level

The overall estimate  $\hat{Y}$  at the State/UT/ all-India level is obtained by summing the stratum estimates  $\hat{Y}_s$  over all strata belonging to the State/UT/ all-India.

#### **Estimates of Ratios**

Let  $\hat{Y}$  and  $\hat{X}$  be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/UT/ all-India level.

Then the combined ratio estimate  $(\hat{R})$  of the ratio  $(R = \frac{Y}{X})$  will be obtained as  $\hat{R} = \frac{Y}{\hat{X}}$ .

#### **Estimates of Error**

The estimated variances of the above estimates will be as follows:

For aggregate  $\hat{Y}$ :

$$V\hat{a}r(\hat{Y}) = \sum_{s} V\hat{a}r(\hat{Y}_{s}) = \sum_{s} \sum_{t} V\hat{a}r(\hat{Y}_{st})$$
 Where  $V\hat{a}r(\hat{Y}_{st})$  is given by

 $Va\hat{r}(\hat{Y}_{st}) = \frac{1}{4}(\hat{Y}_{st1} - \hat{Y}_{st2})^2$ , where  $\hat{Y}_{st1}$  and  $\hat{Y}_{st2}$  are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum's' and sub-stratum't'.

For ratio  $\hat{R}$  :

$$\hat{MSE}(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_{s} \sum_{t} \left[ \left( \hat{Y}_{st1} - \hat{Y}_{st2} \right)^2 + \hat{R}^2 \left( \hat{X}_{st1} - \hat{X}_{st2} \right)^2 - 2\hat{R} \left( \hat{Y}_{st1} - \hat{Y}_{st2} \right) \left( \hat{X}_{st1} - \hat{X}_{st2} \right) \right]$$

**Estimates of Relative Standard Error (RSE)** 

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

Schedule 21.1 - 18

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

#### **Multipliers**

The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for a sub-sample and schedule type are given below:

| sch type                        | sector      | formula for multipliers  |  |  |
|---------------------------------|-------------|--|--|--|
| sch type                        | sector      | hg / sb 1  | hg / sb 2  |  |
| 0.0                             | rural/urban | $\frac{Z_{st}}{n_{stm}} \times \frac{1}{z_{stmi}}$                                       | $\frac{Z_{st}}{n_{stm}} \times \frac{1}{z_{stmi}} \times D^*_{stmi}$                                       |  |
| 21.1                            | rural/urban | $\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{H_{stmi1j}}{h_{stmi1j}}$ | $\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D^*_{stmi} \times \frac{H_{stmi2j}}{h_{stmi2j}}$ |  |
| j = 1, 2, 3, 4, 5 for Sch. 21.1 |             |  |  |  |

#### Note:

- (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable may be used.
- (ii) Multipliers have to be computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.
- (iii) For estimating number of villages possessing a characteristic, take  $D_{stmi}^* = 0$  in the relevant multipliers and there will be only one multiplier for the village.

## **Chapter Four**

## **Concepts, Design and Definitions**

**1.4.7 Travel:** In general, travel is understood as the movement of persons between different geographic locations specifically different geographical administrative areas (like different villages/towns/cities), for any purpose and any duration. Those who travel are referred to as travelers. Travel can occur within a country (domestic travel) or involve more than one country (international travel). Domestic trip (defined later, separately for overnight and same-day) is a subset of domestic travel.

**1.4.8 Usual Place of Residence:** The usual place of residence (UPR) of a person is the place (village/town) where the person is staying continuously for at least six months immediately prior to the date of survey. Even if a person was not staying in the **1.4 Basic Concets** 

**1.4.1 Population Coverage:** The population has been covered are the remembered in listing of households and person under terms and condition of rules.

**1.4.2 House:** Every structure, tent, shelter, etc, is a house irrespective of its use. It may be used for residential or non-residential purpose or both or even may be vacant.

**1.4.3 Household:** A group of persons normally living together and taking food from a common kitchen will constitute a household. It will include temporary stay-away (those whose total period of absence from the household is expected to be less than 6 months) but exclude temporary visitors and guest (expected total period of stay less than 6 months).

**1.4.4 Household size:** The number of members of a household is its size.

**1.4.5 Household's usual consumer expenditure (Rs) in a month:** Household usual consumer expenditure is the sum total of monitory values of all goods and services usualy consumed (out of purchase/home produced or procured otherwise) by the household on domestic account during the month.

**1.4.6 Quintile Class of UMPCE:** A set of UMPCE distribution (saperatly for rural and urban) was generated for the State of Goa based on all member of household. UMPCE quintile distribution, for the part of population, say persons undertaken overnight trips or same day trips for different purposes in the State Goa in rural & urban areas was assumed to be same as UMPCE distribution of the entire population of the State of Goa in rural and urban areas. It is assumed that UMPCE distribution of household is same as the UMPCE distribution of the persons belonging to those households.

village/town continuously for six months immediately prior to the date of survey but is presently staying there with intention to stay there continuously for six months then that place should be taken as his/her UPR.

**1.4.9 Usual Environment:** The usual environment (UE) of an individual refers to the notional geographical space, including his/her UPR, within which he/she moves more or less regularly and frequently (daily/ every alternate day or at least once in a week repeatedly/ likely to be repeated for more than six months for the same purpose) irrespective of the distance.

The usual environment of an individual includes the place of usual residence of the household to which he/she belongs, his/her own place of work or study and any other place that he/she visits more or less regularly and frequently, even when this place is located far away from his/her place of usual residence or in another locality.

**1.4.10 Domestic Overnight Trip:** A **domestic overnight trip** is one with a main destination within the country of residence of the visitor. It refers to a movement - for a duration of <u>not less than twelve hours</u> (including 12 midnight to 5 A.M.) in two consecutive calendar days (i.e. crossing midnight or 00-00 <u>hours</u>) and of <u>not more than 6 months</u> - by one or more household members outside their usual environment (which includes the usual place of residence (UPR)) and return to the same UPR (a round trip), irrespective of place of stay during this hours. The movement should be for any of the following purposes:

- Business
- Holidaying, leisure & recreation
- Social
- Pilgrimage & Religious
- Education and Training
- Health and Medical
- Shopping
- Others

The followings are **<u>excluded</u>** from the purview of domestic trip:

- i. Any movement for the purposes of migration or getting employed or setting up of residence in that place.
- ii. Movements between UPR and the place of work or study.
- iii. All movements, made more or less regularly and frequently from the UPR and back (daily/ every alternate day or at least once in a week) for shopping, visiting family, for religious purpose, health and medical care, education and training, etc repeatedly/likely to be repeated for a period of more than six months for the same purpose, should not be considered as trips irrespective of the distance travelled.
- iv. All the trips completed during the reference period by former household members who are currently not a member of that selected household. A trip is uniquely specified by its main destination, leading purpose, no. of household members in the trip being together (with variation of up to 3 days).
  'Being together' means being in the same town or village for most of the time during the trip and also either starting or ending trip together. They can either start together but end the trip with a variation of up to 3 days or vice-versa.

In some cases trips may be reported for which the set of destinations differs slightly from person to person (among household members who undertook the trip). Even in such cases, if the persons are together for most of the time in the trip, they are considered to be on the same trip. But if two members of a household spent most of the time away from each other during the period since leaving their residence to returning to their residence, then they are considered to have been on two different trips even though their starting and returning dates may be the same.

**1.4.11 Domestic Overnight Tourism:** It covers overnight trips by household members within the territory of India, either as a domestic trip or as domestic part of an international trip.

**1.4.12 Domestic Overnight Visitor:** A domestic overnight visitor is a person (household member), residing in the country, who performs an overnight trip.

**1.4.13 Starting month:** The month in which a particular trip has been started from UPR is the starting month of that trip. It may sometimes happen that many members of a household are travelling together on a trip. In some cases, one member (or more) among those who go on a trip may start later than the rest, due to other engagements. In such cases earliest starting date of that trip by any household member shall be considered.

**1.4.14 Purpose & Leading Purpose:** The purpose of a trip of a household member is that purpose but for which he/she would not have undertaken the trip. Whereas the leading purpose of a trip is that purpose without which none of the household members in that trip would have undertaken the trip. Leading purpose of a trip should be unique to all the members participating in that trip.

**1.4.15 Main Destination:** The main destination of a trip is defined as the place, visiting of which is central to the decision to undertake the trip. However, if no such place can be identified by the informant, the main destination is to be defined as the place where the visitors spent most of their time during the trip. If the visitors spent the same amount of time in two or more places during the trip, then the main destination is defined as the one among these places that is the farthest from the usual place of residence of the visitors.

**1.4.16 Type of trip:** A trip could be of two types-package and non-package. The term package trip, to be used in the survey, is given below.

**1.4.17 Package Trip:** A package trip consists of a "tourism product" provided by a tour-operator which elaborates it and sells it directly or through travel agencies. Within a package trip, travellers receive a **combination of products** associated with a trip, which are **made of more than one of the following tourism services**: Transportation services, accommodation services, food serving services, sightseeing services, entertainment services, etc. and other goods and services at will.

The components of a package trip might be pre-established or tailor-made, in which case, the visitor chooses a combination of services he / she wishes to acquire from a pre-established list of such services. If such a package is availed of for the major part of time in a trip, such a trip should be considered as a package trip.

If the expenditure on more than one chargeable travel services availed for some time during the trip does not cover the whole trip but covers only a minor time of the duration of the trip then such a trip should **not** be considered as package trip although the trip has a package component. A package trip may have a nonpackage component in addition to package component, e.g., a visitor may avail himself of accommodation and other services in the package through some tour operator but make some special sight-seeing arrangements in some places of visit in the trip on his own. Similarly, a trip, which is non-package, may also have package component in addition to non-package component.

**1.4.18 Mode of travel:** Mode of travel refers to means of transport used by visitor(s) to travel in a trip. The travel relevant here is the travelling done to cover the distances to the destinations and not joyrides or movement for adventure, as in skiing or boating for pleasure, or walking inside a museum, fort or maze. Visitor(s) may be using one or more means of transport in a trip, such as: on foot, bus, train (railways, ship/boat, air, <u>own transport:</u> motorised (such as, two-wheeler, auto rickshaw, car/jeep, tractor/truck etc.) , non-motorised (e.g. bicycle, rickshaw, animal driven transport etc.); transport <u>equipment, rental (hired transport):</u> motorised (such as, two-wheeler, auto rickshaw, car/jeep, taxi, tractor/truck etc.) , non-motorised (e.g. bicycle, rickshaw, animal driven transport etc.)

**1.4.19 Major and minor mode of travel:** The means of transport by which maximum distance was travelled has been treated as 'major' mode of travel for that trip. In case more than one such mode was there [e.g. train, air] for which equal distance was travelled then entry to be recorded for that means which was more expensive.

The means of transport by which second maximum distance was travelled has been treated as 'minor' mode of travel for that trip.

**1.4.20 Type of stay:** The type of stay refers to the accommodation used for stay by visitor(s) in an overnight trip. Accommodation refers to the space, whether paid or unpaid, where the visitor(s) spent some considerable time for spending night, taking rest, spending some leisure time, refreshing oneself, etc. during the trip. It could be hotel, guest house, dharamshala, rented house, friends & relatives, others (carriages / coaches, railway station, ship/boat, waiting rooms, airport lounge etc.

**1.4.21 Major and minor type of stay:** The place where the highest number of nights was spent has been treated as 'major' type of stay. In case more than one such place was there (e.g. hotel, Dharamshala) where same no. of nights was spent then entry to be recorded for that type which was more expensive. The place where second highest number of nights was spent has been treated as 'minor' type of stay.

**1.4.22 No. of nights spent outside usual place of residence (including journey):** of nights spent by the visitor outside his/her usual place of residence from starting of the trip to the completion of the trip, including the nights spent in transit.

**1.4.23 Tourism Expenditure:** For the purpose of this survey tourism expenditure shall include expenditure made not just during the trip but also the expenditure related to the trip even if made before or after the trip. It shall include all expenses related to the trip **paid or payable** by the household. It shall also include expenditure related to the trip, whether directly paid or reimbursed, by some institution like Government or

other agencies on behalf of the selected household. All expenditure in connection with the trip <u>except</u> those to be used / intended to be used for productive purposes/enterprises shall be included. All the expenditure incurred and/ or to be incurred relating to the trip performed by the member (s) of the sample household during the reference period is to be included irrespective of the source of expenditure, i.e. whether the expenditure has been incurred and / or to be incurred by the sample household or not. The payment may be made through cash, cheque, credit card, debit card, in instalments, etc. The total expenditure in all such cases irrespective of mode of payment should be recorded.

The component of tourism expenditure has been classified as under:

- a) Package component
- b) Non-package component, which are further sub-divided as below:
- i. Accommodation
- ii. Food and drink
- iii. Transport
- iv. Recreation, religious, cultural, sporting and health related activities
- v.Shopping
- vi. Others

## 1.4.24 Tourism expenditure shall include

- Monetary expenditure on goods and services paid or payable by the visitor out of his/her own pocket or reimbursed by some institution like Government or other agencies/individuals or expenses of the visitor directly paid by such institutions/individuals;
- Expenditure incurred on items of high unit values like cars, computers, etc. related to a trip if those are used for consumption purpose and not for productive purpose.

## 1.4.25 Tourism expenditure shall exclude

- > The payment of taxes and duties not levied on products (goods and services);
- The purchase of financial and non-financial assets, including land, real estate but excluding high unit values like cars, computers, etc. if those are used for consumption purposes;
- All transfers of cash or used goods such as donations to charities or to members of other households as these do not correspond to the purchase of consumption goods or services from these charities or individuals. Alms, bribes, cash tips, cash gifts etc. are also excluded.
- > The payment of all classes of interest, including those on expenditures made during and for trips;

**1.4.26 Domestic Same-day Trip:** A **domestic same-day trip** is one that does not involve an overnight stay (i.e. duration of more than12 hrs and incl. 12 midnight to 5 A.M.) but fulfill other conditions of overnight trips, irrespective of the number of hours spent on the trip.

Same-day trip has either completed on a same calendar date or spread over two consecutive calendar dates with a main destination within the country of residence of the visitor, for any of the following purposes:

- Business
- Holidaying, leisure & recreation
- Social
- Pilgrimage & Religious

- Education and Training
- Health and Medical
- Shopping
- Others

Like in overnight trips, all movements of persons, whose nature of work/job is regular touring outside their UPR to different places, like, mobile hawkers, on-board staff of airlines /ship/ railways or of buses or of hired taxis and other public transports etc. are **not** considered as trips (overnight or same-day). <u>However</u> movements of medical representatives, sales executives, field investigators, who have to travel to different places, other than their main place of work from where they report to their controlling officer/ get salary etc., in relation to their official work/ business, are considered as trips.

**1.4.27 Domestic Same Day Visitor:** A domestic same-day visitor is a person (household member), residing in the country, who performs a same-day trip.

## Chapter 5

## **Survey Findings**

### **Domestic Tourism Expenditure**

#### **5.0 Introduction**

5.0.0. Hosuehold Survey has been done to capture data for prepration of third Tourism Satelite Account (TSA) by the Ministry of Tourism, by itself, does not constitute any specific industries or sector in the economy, Rather it is a composite of several traditional sectors like transport, accommodation, etc. Besides, tourism has linkages with distinct patterns of consumption and expenditure.Tourism consumption and expenditure data on domestic tourism (overnight) is an important component for preparation of TSA.

**5.1 Features of Domestic Tourism:** Schedule is designed to collect detail information on household (hh) characteristics, visitor characteristics, trip characteristics and expenditure characteristics in relation to domestic overnight trips, required for preparation of TSA and also some important information on trips and expenditure in connection with domestic same day trips in India through a nationwide household survey.

#### **5.2 Household Characteristics**

**Table 1.1a** gives rural and urban bifurcation of estimated households and population. As per this survey 13.16 lakhs is the estimated population out of which 63% is urban. 3.21 lakhs is the estimated number of households of which 65% were in urban areas.

| Table 1.1a Estimated number (00) of households and population for each sector |      |      |     |  |  |
|---|------|------|-----|--|--|
| Sector No. of households Population Average household                         |      |      |     |  |  |
| (00) (00) size  |      |      |     |  |  |
| 1   | 2    | 3    | 4   |  |  |
| Rural   | 1110 | 4856 | 4.4 |  |  |
| Urban   | 2095 | 8305 | 3.9 |  |  |
| Rural+Urban 3205 13161 4.1  |      |      |     |  |  |

Ref: Table 1, Appendix A

**Table 1.1b** shows 23% of households completed at least one overnight trip during last 365 days or during last 30 days.

| Table 1.1b Percentage of households reporting at least one overnight trip with leading purposes |  |      |  |  |  |  |  |  |
|---|--|------|--|--|--|--|--|--|
| for each sector   |  |      |  |  |  |  |  |  |
| Sector  | Sector Estimated no. of Percentage of households reporting at leas |      |  |  |  |  |  |  |
|   | households (00) one overnight trip                                 |      |  |  |  |  |  |  |
| (1)   | (2)  | (3)  |  |  |  |  |  |  |

## 5.10 Domestic Tourism Expenditure

## 5.10.1 Expenditure on overnight trips

Table 2.1 shows leading purpose shopping was the costliest overnight trips with average expenditure per trip of Rs. 21419 followed by health & medical Rs. 17207. Social trip was the least expensive with cost of Rs. 4402.

|  | Table 2.1 Average expenditure (in Rs.) per overnight trip by categories of expenditure for each leading purpose |                    |                     |           |          |                                   |         |        |       |

#### 5.10.2 Item-wise share of overnight trip expenditure

Tourism expenditure has usually two components- one package component and other non-package component. Non-Package component includes accommodation, food, transport, shopping, recreation, religious, cultural, sporting and health related activities and others.

Table 2.2 gives item wise share of overnight trip expenditure separately for rural and urban areas for trips completed during (a) last 365 days with leading purposes holiday, leisure, health & medical and shopping and (b) last 30 days with leading purposes business, social, religious and pilgrimage, education & training and others.

Overnight trip expenditure, contribution of Package component is low compared to that of non-package component. Further, it is observed that for trips undertaken during last 365 days, share of expenditure on medical items was high in rural areas- 43% and on transport & shopping together in urban areas- 47.1%) with respect to other items. For trips undertaken during last 30 days, expenditure on transport and shopping items was high (more than 60%).

| Table 2.2 Item-wise share (in %) of trip expenditure for overnight |                |                    |       |       |  |  |  |  |  |

| Total  | 100.0          | 100.0              | 100.0 | 100.0 |  |  |  |  |  |

Ref: Table 21A & 21B, Appendix A

Table 2.3a and 2.3b provide the item wise contribution of non-package component in overnight trip expenditure separately for rural and urban areas for overnight trips competed during last 365 days & 30 days respectively. As the major part for overnight trip expenditure was contributed by non-package components,

so it is worthwhile to see how items of expenditure of non-package component contribute in trip expenditure on non-package component. Expenditure on overnight trips completed during last 365 days on medical items for health & medical trips and on shopping items for shopping trips were high. Expenditure on overnight trips completed during last 30 days on shopping items for social trip was high.

| Table 2.3a Item wise share (in %) of trip expenditure on non-Package component for overnight trips completed during last 365 days for leading purposes |       |  |       |       |       |       |
